

Erasmus Hematology Lectures 2025-2026

- 1 September 2025**
Zoom Mark Dawson, Peter MacCallum Cancer Centre, Melbourne, Australia
Transcription & Clonality - The foundation for understanding epigenetic influences on development and disease This lecture is at 1pm CEST/ 7am EDT/ 6am CDT/ 4am PDT
- 8 September 2025**
Ee-1318 Florian Perner, Hannover Medical School, Hannover, Germany
Menin inhibition in AML - resistance and persistence of leukemia cells under therapy
- 15 September 2025**
Zoom Stephanie Xie, Princess Margaret Cancer Centre, University Health Network, Toronto, Canada
Unlocking human hematopoietic stem cell heterogeneity with inflammatory stress
- 29 September 2025**
Zoom Kevin M. Shannon, UC San Francisco, San Francisco, U.S.A.
Selectively targeting N-Ras oncoproteins in hematologic malignancies
- 6 October 2025**
Ee-1318 Felipe Prospér, Clinica Universidad de Navarra, Pamplona, Spain
The role of the non-immune microenvironment in aging and hematological malignancies
- 13 October 2025**
Zoom Grant Challen, Washington University School of Medicine, St. Louis, U.S.A.
Clonal competition shapes normal and neoplastic hematopoiesis
- 27 October 2025**
Zoom Trista North, Harvard Medical School, Boston, U.S.A.
Extrinsic regulation of vertebrate HSC formation
- 3 November 2025**
Ee-1318 Kathleen Freson, KU Leuven, Leuven, Belgium
Master regulators of megakaryopoiesis: a molecular perspective
- 10 November 2025**
Zoom Alisa Wolberg, University of North Carolina, Chapel Hill, U.S.A.
Venous thrombosis/thromboembolism: linking biochemical mechanisms to novel therapeutic strategies

page 1 of 2

Time: Mondays 16:00 hrs / 04.00 PM CE(S)T

Location: Zoom & Ee-1318

Contact: Prof Dr Ruud Delwel, h.delwel@erasmusmc.nl
Mrs. Tessa Mannee, t.mannee@erasmusmc.nl

Duration: 1 hour

Webinar ID: 844 1856 0786

Zoom link: <https://us06web.zoom.us/j/84418560786>

Erasmus Hematology Lectures 2025-2026

- 24 November 2025**
Zoom Agata Smogorzewska, The Rockefeller University, New York, U.S.A.
When Watson and Crick get linked: pathogenesis of Fanconi anemia
- 1 December 2025**
Ee-1318 Anna Bigas, Hospital del Mar Research Institute and Josep Carreras Leukemia Research Institute, Barcelona, Spain
Understanding the process for hematopoietic stem cell generation: from the embryo to the lab
- 15 December 2025**
Zoom Ningqing Liu, Erasmus MC, Rotterdam, The Netherlands
Targeting the BAF chromatin remodeling complex to battle human cancer
- 12 January 2026**
Ee-1318 Chiara Ambrogio, University of Turin, Turin, Italy
RAS: New therapeutic strategies for an old oncogenic target
- 2 February 2026**
Ee-1318 Bas van Steensel, Netherlands Cancer Institute, Amsterdam, The Netherlands
Probing the grammar and logic of gene regulation
- 2 March 2026**
Ee-1318 Simon Haas, Berlin Institute of Health (BIH) at Charité & Max Delbrück Center (MDC) Berlin & PHURI at Queen Mary University London, Berlin & London, Germany & U.K.
From single-cell genomics to predictive patient trajectories
- 13 April 2026**
Ee-1318 Abdullah Khan, MRC Weatherall Institute of Molecular Medicine, Oxford, U.K.
Building bone marrow in a dish as a pre-clinical model of haematological disease
- 11 May 2026**
Ee-1318 Michael Milsom, HI-STEM, Heidelberg, Germany
Intrinsic and extrinsic mediators of hematopoietic stem cell aging and pre-malignant evolution
- 15 June 2026**
Ee-1318 KJ Patel, University of Oxford, Oxford, U.K.
Formaldehyde induced clonal haematopoiesis - when and where?
